The Electrical Engineering Students' European Association Awards

*Mario Stojčevski*

the official title

**Soft Skills Trainer**

Kostis Ntozis  
EESTEC Chairperson

Gülner Berfu Beleli - Anastasia Outziola  
Giannis Tambakis - Ermin Mujanović  
EESTEC Training Team Recognition Council

## The Association

The Electrical Engineering STudents' European assoCiation (EESTEC) is a non-political, non-profit organization for Electrical Engineering and Computer Science (EECS) students at universities, institutes and schools of technology in Europe awarding an engineering degree. It was founded in 1986 in Delft, The Netherlands. The primary aim of EESTEC is to promote and develop international contacts and the exchange of ideas among the students of EECS. The Association works to achieve this aim through its activities.

## Training Team

The EESTEC Training Team is a group of Trainers aiming to deliver training sessions in order to develop the Association's members' soft skills, transfer knowledge and support the Association's growth on both the local and the international level. The topics that EESTEC Trainers deliver fall into two main categories: Soft skills training sessions (Emotional Intelligence, Leadership, Teamwork, Communication Skills, Presentation Skills, Time Management, etc) and Organizational Management training sessions (Project Management, Human Resources, Promotion, Fundraising, etc). The Team is offering additional dedicated training and working sessions on other fields, based on the needs of each group and the background of each Trainer.

## Education

On the EESTEC "Training for Trainers" (T4T) event, experienced EESTEC Trainers educate participants on the topics of training design, delivery and follow-up as well as presentation skills, didactics, self-development, and ethics. Additionally, the participants deliver a short training session on which they receive profound feedback.

## Mentoring System

After "Training for Trainers", the graduates (Trainer Candidates) are mentored by experienced Trainers, who support them and follow their progress. They work together on the Candidate's annual plans as well as on their personal Self Assessment, an official document which consists of areas for personal and training development and which is frequently revised, based on the evaluation of the performance of the Candidate.

## Trainer Status

The promotion of the Trainer Candidates to official EESTEC Soft Skills Trainers and the award of the Trainer Status encompass the successful completion of the following obligations, within 2 years after the graduation of "Training for Trainers":

- Delivery of at least 36 hours of training sessions
- Delivery of at least 12 hours of training sessions in English
- Progress on personal and training development, as stated in the Self-Assessment
- Feedback and consent from the Candidate's mentor
- Evaluation of the application by the EESTEC Training Team Board
- This certificate is supplemented by a timely listing of the delivered training sessions.
